

Andrew J. Warren

Hans Freudenthalgebouw, Budapestlaan 6, 3584 CD, Utrecht, The Netherlands

✉ a.j.warren@uu.nl | 🏠 andrew-warren.github.io

Employment

- Fall 2026 - present **Universitair Docent (Assistant Professor)**, Department of Mathematics, Utrecht University
- Spring 2023 - Fall 2026 **Postdoctoral Fellow**, Department of Mathematics, University of British Columbia
- Fall 2022 - Spring 2023 **CARMIN Visitor (postdoc)**, Institut des Hautes Études Scientifiques (Université Paris-Saclay)

Education

- Carnegie Mellon University** Pittsburgh, PA, USA
PHD LOGIC, COMPUTATION, AND METHODOLOGY 18 August 2022
• Advisor: Prof. Dejan Slepčev
- Carnegie Mellon University** Pittsburgh, PA, USA
MS MATHEMATICAL SCIENCES 19 May 2019
• Advisor: Prof. Jeremy Avigad
- Reed College** Portland, OR, USA
BA MATHEMATICS 19 May 2014
• Honors thesis advisor: Prof. Thomas Wieting

Other Affiliations

- Fall 2022 **Visitor**, Institut Henri Poincaré
- Fall 2021 **Visiting Graduate Student**, Simons Institute for the Theory of Computing, UC Berkeley
- 2012-2014 **Senior Reactor Operator**, Reed Research Reactor (license granted by US Nuclear Regulatory Commission)

Publications

A (*) symbol indicates first authorship. For articles with no (*), all authors contributed equally and are listed alphabetically.

PUBLISHED AND REVISION REQUESTED

- Andrew Warren***, Anton Afanassiev, Forest Kobayashi, Young-Heon Kim, and Geoffrey Schiebinger. Principal curves in metric spaces and the space of probability measures. Revise and resubmit. [arXiv:2505.04168](https://arxiv.org/abs/2505.04168), 53 pp.
- Vincent Guan*, Joseph Janssen*, Hossein Rahmani, **Andrew Warren**, Stephen Zhang, Elina Robeva, and Geoffrey Schiebinger. Identifying drift, diffusion, and causal structure from temporal snapshots. Minor revision at the *Journal of Machine Learning Research*. [arXiv:2410.22729](https://arxiv.org/abs/2410.22729), 47 pp.
- Jakwang Kim, Young-Heon Kim, Yuanlong Ruan, and **Andrew Warren**. Statistical inference of convex order by Wasserstein projection. To appear at *Bernoulli*. [arXiv:2406.02840](https://arxiv.org/abs/2406.02840), 31 pp.
- Andrew Warren**. Ultralimits of Wasserstein spaces and metric measure spaces with Ricci curvature bounded from below. Major revision. [arXiv:2303.04294](https://arxiv.org/abs/2303.04294), 42 pp.
- Dejan Slepčev and **Andrew Warren**. Nonlocal Wasserstein distance: metric and asymptotic properties. *Calculus of Variations and Partial Differential Equations*, Vol. 62, No. 238, pp. 1-66, 2023. [arXiv:2209.08407](https://arxiv.org/abs/2209.08407)
- Andrew Warren**. Wasserstein conditional independence testing. Major revision. [arXiv:2107.14184](https://arxiv.org/abs/2107.14184), 31 pp.
- Andrew Warren**. Fluctuation bounds for ergodic averages of amenable groups. *Bulletin of the London Mathematical Society*, Vol. 53 (6), pp. 1816-1833, 2021. [arXiv:2107.02403](https://arxiv.org/abs/2107.02403)

SUBMITTED

Clément Soubrier*, Geoffrey Woollard, **Andrew Warren**, and Khanh Dao Duc. Beyond Procrustes distances: a multilinear Gromov-Wasserstein distance capturing chirality. Submitted. [arXiv:2608.27774](https://arxiv.org/abs/2608.27774), 57 pp.

Sharvaj Kubal*, Naomi Graham*, Matthieu Heitz, **Andrew Warren**, Michael Friedlander, Yaniv Plan, and Geoffrey Schiebinger. STARK denoises spatial transcriptomics images via adaptive regularization. Submitted. [arXiv:2512.10994](https://arxiv.org/abs/2512.10994), 34 pp.

Andrew Warren. Gradient flow structure for some nonlocal diffusion equations. Submitted. [arXiv:2412.20969](https://arxiv.org/abs/2412.20969), 65 pp.

DRAFTS

Andrew Warren*, Anton Afanassiev, Forest Kobayashi, and Geoffrey Schiebinger. Estimation of one-dimensional branching structures in data. Preprint, available on request.

Jonathan Hayase, Forest Kobayashi, and **Andrew Warren**. Finite-sample estimation of principal manifolds with supercritical Sobolev regularity. In preparation.

Nathan Glatt-Holtz and **Andrew Warren**. Consistency for a Bayesian inversion approach to drift estimation in the Fokker-Planck equation. In preparation.

Presentations

CONFERENCE PRESENTATIONS

September 2025. *Gradient flow structure for some nonlocal diffusion equations*. (Invited talk) “Gradient flows face-to-face”: Workshop at the Institute of Mathematics of the University of Granada (IMAG), Spain.

June 2025. *Sampling beyond the log-Sobolev class*. (Invited talk) Workshop on “Wasserstein Gradient Flows in Math and Machine Learning”, Banff International Research Station, Alberta.

June 2025. *Estimation of one-dimensional branching structures in data*. (Invited talk) Workshop on “Frontiers in Applied Analysis” at the Center for Nonlinear Analysis, Carnegie Mellon University, Pittsburgh.

January 2025. *Estimation of one-dimensional structures from noisy empirical observation*. (Invited talk) Joint Mathematics Meeting of the American Mathematical Society, Seattle.

November 2024. *Estimation of one-dimensional structures from noisy empirical observation*. (Invited talk) Canadian Mathematical Society winter meeting, Vancouver.

June 2024. *Wasserstein principal curves*. (Invited talk) Summer School on Optimal Transport, Stochastic Analysis and Applications to Machine Learning, Korea Advanced Institute of Science and Technology, Daejeon, South Korea.

January 2024. *Recent connections between Loeb measures and the analysis and geometry of metric measure spaces*. (Invited talk) Joint Mathematics Meeting of the American Mathematical Society, San Francisco.

July 2023. *Gradient flow structure for some nonlocal diffusion equations*. (Contributed talk) “Nonlinear PDEs: Recent Trends in the Analysis of Continuum Mechanics”: Workshop at the Hausdorff Center for Mathematics, Bonn.

November 2022. *Basic properties of some nonlocal Wasserstein-type distances*. (Invited talk) Discrete Systems and Calculus of Variations: Workshop at the TU Munich Institute for Advanced Study, Garching bei München.

April 2022. *Ultralimits of Wasserstein spaces and $CD(K, \infty)$ spaces*. (Invited talk) Joint Mathematics Meeting of the American Mathematical Society, Seattle.

July 2021. *Wasserstein conditional independence testing*. (Contributed poster, Geometry and Topology meets Data Analysis and Machine Learning (GTDAML) 2021.

April 2019. *Fluctuations of amenable ergodic averages*. (Contributed talk) Workshop on Dynamical Systems and Related Topics, University of Maryland (College Park).

June 2018, *Uniform metastability for ergodic averages of amenable groups*. (Contributed poster) Canadian Mathematical Society Summer Meeting, Fredericton, New Brunswick.

SEMINAR TALKS

March 2026. *Principal curves in the space of probability measures*. (Invited talk) Fields Institute Mathematical AI Seminar, Toronto/Online.

February 2026. *Estimation of 1d structures from empirical data*. (Invited talk) Indiana University Seminar of the Institute for Scientific Computing and Applied Mathematics, Bloomington.

November 2025. *Estimation of 1d structures from empirical data*. (Invited talk) PSU-Purdue-UMD Joint Seminar on Mathematical Data Science, Online.

March 2025. *Gradient flow structure for some nonlocal diffusion equations*. (Invited talk) University of California Santa Barbara Applied Mathematics/PDE/Data Science seminar, Santa Barbara.

September 2024. *Estimation of one-dimensional structures from noisy empirical observation*. Institute of Applied Mathematics seminar talk, University of British Columbia, Vancouver.

November 2023. *Gradient flow structure for some nonlocal diffusion equations*. (Invited talk) KAIST stochastic analysis seminar, Daejeon, South Korea.

April 2023. *Gradient flow structure for some nonlocal diffusion equations*. (Invited talk) University of Washington probability seminar, Seattle.

February 2023. *Gradient flow structure for some nonlocal diffusion equations*. (Invited talk) IST Austria stochastic analysis group seminar, Klosterneuburg, Lower Austria.

December 2022. *Properties of some nonlocal Wasserstein-type distances*. (Invited talk) Optimal transport-PDE-machine learning seminar, Laboratoire de Mathématiques d'Orsay, Université Paris-Saclay, Île-de-France.

March 2022. *Static mean field games*. CMU-SIAM working group seminar, Pittsburgh.

December 2021. *Schrödinger bridge generative models*. CMU statistics and machine learning seminar, Pittsburgh.

November 2021. *Early control theory: Wiener and Bellman*. CMU historical machine learning seminar, Pittsburgh.

April 2021. *Natural gradient descent*. CMU-SIAM working group seminar, Pittsburgh.

March 2021. *Parametrized measure models*. CMU-SIAM working group seminar, Pittsburgh.

December 2020. *Wasserstein gradient flows, Chi-squared divergence, and Stein variational gradient descent*. CMU Center for Nonlinear Analysis working group seminar, Pittsburgh.

November 2020. *An optimal control perspective on deep learning*. CMU-SIAM working group seminar, Pittsburgh.

November 2019. *Continuum approximations for wide neural networks and gradient descent*. CMU statistics and machine learning seminar, Pittsburgh.

INVITED LECTURE SERIES

February - March 2026. *Tutorial series on optimal transport*. Indiana University's Institute for Scientific Computing and Applied Mathematics, Bloomington.

Teaching Experience

Fall 2025	Mathematical Foundations of Machine Learning , Instructor	UBC
Fall 2024	Mathematical Foundations of Machine Learning (pilot course) , Instructor	UBC
Spring 2024	Integral Calculus , Instructor	UBC
Spring 2022	The Nature of Reason , Teaching Assistant	CMU
Spring 2021	Game Theory , Teaching Assistant	CMU
Fall 2020	Revolutions in Science , Teaching Assistant	CMU
Spring 2020	Game Theory , Teaching Assistant	CMU
Fall 2018	Formal Logic , Teaching Assistant	CMU
Spring 2018	The Nature of Reason , Teaching Assistant	CMU
Fall 2016	Rationalism and Empiricism , Teaching Assistant	CMU
Spring 2016	The Nature of Reason , Teaching Assistant	CMU
Summer 2015	Astrophysics , <i>The Summer Science Program</i> , Lead Teaching Assistant	Boulder, CO
Summer 2014	Astrophysics , <i>The Summer Science Program</i> , Teaching Assistant	Montecito, CA
2012-2014	Reactor Training Program , <i>Reed Research Reactor</i> , Instructor	Reed

Service

- 2025 **Grant application referee**, US Department of Energy's Artificial Intelligence and Technology Office
- 2022 - **Referee**, Annals of Applied Probability; Information and Inference; Nonlinear Analysis; SIAM
- present Journal on Applied Dynamical Systems; Stochastic Processes and Applications (1x each)
- 2021 - 2022 **Departmental Diversity, Equity, and Inclusion Committee**, Graduate student co-representative
- 2019 & 2021 **Admissions Committee of The Summer Science Program**, Application reader for Northern California and New York City Metropolitan Region
- 2017 - 2019 **Department Colloquium**, Co-organizer
